

Mayer Domestic Water Improvement District

Dec. 5, 1991

Meeting Called to Order at: 19:30

Roll Call: Present Walter Diskin, Bert Tesky and Gary Sandy. Robert Houser and Joe Samsill absent. Minutes of Nov. 7 accepted as corrected, height of fence at main tank to be raised as opposed to Jacobs Tank, and Phil Albins agreed to sell wells across the creek for \$100,000.00, amortization to begin in two years instead of being completed in two years.

Manager Report: Financial statement on file. Operating expense was just over \$6,000.00. Current Assets are \$44,030.00. Pumping costs are just \$900.00. Gene Miller reports that we will be getting a bill for the new well. Both the Grapevine and Poland wells are still not producing like they should. Audit on condition of books reported by Edgel Bennett.

filter? Jesus Bailey, of the Small Utilities Ass'n inspected the system in regard to Chlorination. He suggested four sights for injection. He will suggest suppliers in the near future. We are losing water pressure in the Grapevine pipe, no explanation so far.

OLD BUSINESS:

Winterization has almost been completed.

Garage and purchase of the wells: Discussion in regard to having test on them. Albins will drop off drilling log at Teskey's house.

Discussion on replacement of Chairman Samsill. He will submit a written resignation, with a suggestion that Duane Hines be his replacement.

NEW BUSINESS:

Discussion of Cross Connection Ordinance, tabled until next meeting.

Discussion of leak and valve, by the cattle guard next to Black Canyon Homes. Has been fixed temporarily.

Discussion of "Report to the Public". Would cost about \$150 to mail first class. Moved by Diskin, second by Sandy to post them at the Post Office, Duncan's, Elders, and the Library.

Adjourned at: 8:22 PM
