

Meter Test Request Form

If the Water District Customer believes a meter is not working properly, they have the right to request the meter be tested by a 3rd party entity by submitting a written request to the District office. The meter will be pulled, and another meter put in its place, the old meter **may** not be put back in its place regardless of the test results. The meter will be sent to a 3rd party meter testing facility. When the results are returned to the District, the District will send a copy of the report to the customer. If the meter passes, the customer will be required to pay the District's Board approved testing fee, the fee will be added to their account. If the meter fails in the customers favor, meaning it is under registering water usage, the customer is required to pay the District's Board approved testing fee, the fee will be added to their account. If the meter fails in the Districts favor, meaning it is over registering water usage, the customer will not be required to pay the District's Board approved testing fee and the District will adjust the customers water usage for the current month in question only.

Reason for Requesting Meter Testing

I have read and understand the District policy on meter testing. I understand that I am responsible for payment of the meter testing if the meter passes or if the meter fails in my favor.
